TABLE OF CONTENTS.

VOLUME XIII.

PAPERS READ BEFORE THE ACADEMY.

PROF. J. A. ALLEN.

PAGE.

Direct Action of Physical Conditions as a Factor in Evolution (by title)..... 159

DR. E. S. F. ARNOLD.

Limonite from St. John's River, Florida..... 22

AUDUBON MONUMENT COMMITTEE.

Report..... 23

Treasurer's Accounts..... 58

DR. H. CARRINGTON BOLTON.

An International Index to Chemical Literature..... 2

PROF. N. L. BRITTON.

Altitudinal distribution of Eastern Plants (by title)..... 7

Species of the genera *Dracocephalum* and *Cedronella* (by title)..... 98

Our Conception of Species modified by the Doctrine of Evolution... 132

GARY N. CALKINS.

On the History of the Archoplasm mass in the Spermatogenesis of *Lumbricus*..... 135

F. M. CHAPMAN.

Birds and Mammals of Trinidad (by title)..... 7

PROF. A. H. CHESTER.

Concerning another Mineral at Franklin Furnace..... 97

On Caswellite, an altered Biotite from Franklin Furnace..... 181

Quartz Crystals from Ellenville, N. Y..... 181

104670

O. F. AND A. C. COOK.

A Monograph on *Scyonotus* (by title)..... 169

CHAS. F. COX.

Recently discovered deposits of Diatomaceous Earth in the Adirondacks (Additional Notes)..... 98

PROF. E. D. COPE.

Discussion on Transmission of acquired characters 155

H. E. CRAMPTON, JR.

A Case of Reversed Cleavage in a Sinistral Gasteropod (by title)... 130

HERMAN S. DAVIS.

Note on Bessel's determination of the relative parallaxes of μ and θ Cassiopeiæ 75

DR. BASHFORD DEAN.

Experiments in Artificial Culture of Sturgeon..... 7

Fin-structures of *Diplurus* 22

Experiments in Sturgeon Hatching in the Delaware..... 69

Note on the Fossil Fish in the State Museum of Kentucky 109

Cladoselache Newberryi, A new Cladodont from the Ohio Waverly... 115

Drawings of *Dipterus valenciennesi* S. & M. and *Cœlacanthus elegans* Newb. 131

New forms of Coccosteids ; and the relations of Arthrodiran Fishes (by title)..... 176

HARRISON G. DYAR.

A Classification of Lepidopterous Larvæ (published in ANNALS)... 161

A. S. EAKLE.

Allanite Crystals from Franklin Furnace 102

Tourmaline Crystals from Rudeville, N. J. (abs.) 185

PROF. THOS. EGLESTON.

Presentation of Audubon Monument..... 30

Address at Special Audubon Meeting..... 41

CARL H. EIGENMAN AND WM. L. BRAY.

A Revision of the North American Cichlidæ (by title) 110

CARL H. EIGENMANN.

Notes on some South American Fishes (by title) 110

DANIEL G. ELLIOT, F. R. S. E.

Life and Services of John James Audubon..... 43

PAUL GIBIER.

Glycosuria produced experimentally in animals by psychical causes (by title)..... 176

DR. ARNOLD GRAAF.

The Funnels and Vesiculæ terminales of *Nephelis*, *Aulostoma* and *Clepsine* 206

PROF. WM. HALLOCK.

Observations on Deep-Well Temperatures at Wheeling, W. Va., Summer of 1893 (by title)..... 6

The Theory of Geysers..... 75

A new method of making very fine Bolometers (abstract)..... 171

The Photography of the Manometric Flames in the analysis of Articulate Sounds (by title)..... 205

N. D. C. HODGES.

A new method of protecting Houses from Lightning (by title)..... 171

ARTHUR HOLLICK.

Observations on the Botany and Geology of Martha's Vineyard.... 8

Remarks on Dr. Dean's paper on Cladodonts 118

Further notes on the Geology of the North Shore of Long Island... 122

DR. E. O. HOVEY.

Note on the Petrography of Certain Basaltic Boulders from Thetford, Vermont.... 161

PROF. O. P. HUBBARD.

Notice of an Ancient Beaver Pond at Plainfield, N. H..... 115

On the discovery of Basaltic Boulders containing large nodules of Olivine at Thetford, Vermont 161

Account of an ancient Beaver Pond and of cut sticks found therein 177

DR. GEO. S. HUNTINGTON.

The Gross Anatomy of the Kidney of *Elephas Indicus*..... 110

The Morphology and Significance of the Biceps flexor cubiti (by title) 132

DR. HARWOOD HUNTINGTON.

Certain New Derivatives in the Aromatic Series (printed in ANNALS) 161

PROF. HAROLD JACOBY.

Report on the Meetings of the National Academy of Sciences 120
Notice concerning the motion of 61 Cygni..... 120
On the reduction of Astronomical Photographs (by title) 121

MORRIS K. JESUP.

Address at Special Audubon Meeting..... 39

DR. A. A. JULIEN.

A recently discovered fossil fungus from a petrified forest near Cairo..... 131

PROF. J. F. KEMP.

Ore-deposits at Franklin Furnace, N. J. (by title)..... 22
Ore-deposits at Franklin Furnace 76
Nugget of Native Antimony from Kern Co., Cal..... 139
An Orbicular Granite from Quonochontogue, R. I. 140
On the occurrence of Leucite in New Jersey..... 144
Notes of a Trip to the Iron Mines at Cornwall, Pa. (by title)..... 205
Nickel Mine at Lancaster Gap, Pa. (by title)..... 205

GEO. F. KUNZ.

Mineralogical Notes 144

DR. F. S. LEE.

Functions of the internal ear (by title) 7
The Scope of Modern Physiology (by title) 98

W. G. LEVISON.

Standard Sizes of Trays, Drawers, etc. 140

DR. L. M'I. LUQUER.

Preliminary notice of Sodalite from new localities (by title)..... 139

A. C. MATHEWS.

The morphology and physiology of the pancreas cell (by title)..... 176

W. D. MATTHEW.

The intrusive Rocks near St. John, N. B. 185

PROF. A. J. MOSES.

Cavities in Quartz from Montclair, N. J. 184
Zincite from Franklin Furnace (Abs.) 184
Atacamite from Globe, Arizona (Abs.) 184

PROF. E. S. MORSE.

Discussion on Transmission of Acquired Characters 156

PROF. H. F. OSBORN.

New forms of fossil Titanotheres from the Upper Bridger (by title), 7
Restorations of the Lower Miocene Mammals (by title) 110
Water Color of a Miocene Landscape 131
A Division of Eutherian Mammals into Mesoplacentalia and Cenoplacentalia 175, 234

C. L. POLLARD.

Note on Fossil Leaves from Great Neck, L. I. 180

C. A. POST.

Plates of Pleiades and Cygni 121

PROF. M. I. PUPIN.

Electrical Resonance (by title) 122

PROF. J. K. REES.

Report on work at Columbia College Observatory in connection with the Naples Observatory 6
Work of making a photographic Catalogue and Chart of the Heavens 121
Solar Faculæ shown in Rutherford's Photographs 205

PROF. P. DE P. RICKETTS.

On an Auriferous Deposit in Buckingham Co., Va. (abs.) 122

HEINRICH RIES.

A Pleistocene Lake-bed at Elizabethtown, N. Y. 107
On new forms of Wollastonite from New York State 146
Microscopic Organisms in the Clays of New York State 165
Additional note on Wollastonite from New York State 207
Notes on artificial Crystals of Oxide of Zinc (by title) 208
Preliminary Notes on the Pyroxenes of New York State (by title) . 208

EDWARD D. SELF.

A Visit to the Falls of Bassasseachic 148
Notes on a Trip in the State of Oaxaca, Mex. 204

GARRETT P. SERVIS.

Astrology (public lecture).....

PROF. C. H. SMYTH, JR.

Diabase Dikes of the Thousand Islands, St. Lawrence River..... 213

O. S. STRONG.

The Origin and Distribution of the Cranial Nerves of Amphibia (by title) 176

An Improvement of the Golgi Staining Method (by title) 206

On Lithium Bichromate as a hardening Reagent for the Golgi Method 206

W. S. VALIANT.

On the Stratigraphical Relations of the bed yielding *Triarthrus Beckii*, near Rome, N. Y. (abstract)..... 109

GILBERT VAN INGEN.

Notes on the Trenton Limestones in the Lake Champlain Valley (by title) 115

Notes on the Geology of Ulster County (by title)..... 165

THEODORE G. WHITE.

The Geology of Essex and Willsboro' Townships on Lake Champlain..... 214

PROF. E. B. WILSON.

Visit to the Pacific Coast in behalf of Marine Laboratory 7

Method of preparing sections of the testis of the lobster (by title).. 110

Discussion on Transmission of Acquired Characters..... 156

Experiments upon the Horizontal Isotropy of the Egg (by title).... 206

PROF R. S. WOODWARD.

The Iced Bar and the Long Tape Base Apparatus of the U. S. Coast and Geodetic Survey (by title)..... 6

Periodic Errors of the Graduated Circle (by title)..... 205

DR J. L. WORTMAN.

Field Expedition of the American Museum of National History.... 122

Patriofelis, Skeleton and description of..... 131

Discussion on Transmission of Acquired Characters..... 156
